

# How To Update Collection\_02

*Yrr, bas ye golden rule yaad rakhna:*

*File ko assets folder me rakho*

↓

*Uska link data.js me add karo*

↓

*Done*

*Example Folder*

*Collection\_02*

*assets/*

|

|—— *Collection\_02update.pdf*

|—— *HTML Notes.pdf*

|—— *CSS Notes.pdf*

|—— *JS Notes.pdf*

|—— *Git Commands.pdf*

|—— *My Resume.pdf*

|—— *Todo.txt*

|—— *Interview Questions.docx*

*Documentation Section*

*Open:*

*js/data.js*

*Find:*

*{*

*title:"Documentation",*

*icon:"📁",*

*links:[*

*],*

*commands:[],*

*notes:[*

*}*

*Add Multiple Files*

*{*

```
title:"Documentation",
icon:"📄",

links:[

  {
    name:"Collection_02 Update Guide",
    url:"../assets/Collection_02update.pdf"
  },

  {
    name:"HTML Notes",
    url:"../assets/HTML Notes.pdf"
  },

  {
    name:"CSS Notes",
    url:"../assets/CSS Notes.pdf"
  },

  {
    name:"JavaScript Notes",
    url:"../assets/JS Notes.pdf"
  },

  {
    name:"Interview Questions",
    url:"../assets/Interview Questions.docx"
  }

],

commands:[],

notes:[]
}
```

Save

Done ☒

---

Important Notes Section

If you want another section:

,

{

```
title:"Important Files",
icon:"📁 ",

links:[

  {
    name:"Resume",
    url:"../assets/My Resume.pdf"
  },

  {
    name:"Todo List",
    url:"../assets/ToDo.txt"
  }

],

commands:[],

notes:[]
}
```

Save

New card automatically appears

---

Example: AI Resources Section

```
,
{
  title:"AI Resources",
  icon:"🤖",

  links:[

    {
      name:"Prompt Notes",
      url:"../assets/Prompt Notes.pdf"
    },

    {
      name:"AI Guide",
      url:"../assets/AI Guide.pdf"
    }

  ],

},
```

```
  commands:[],  
  
  notes:[  
}
```

---

### Example: College Section

```
,  
{  
  title:"College",  
  icon:"🎓",  
  
  links:[  
  
    {  
      name:"Semester Notes",  
      url:"../assets/Sem Notes.pdf"  
    },  
  
    {  
      name:"Assignment",  
      url:"../assets/Assignment.docx"  
    }  
  
  ],  
  
  commands:[],  
  
  notes:[  
}
```

---

### Future Process (Always Same)

#### Step 1

Put file inside:

assets/

#### Step 2

Copy filename exactly.

Example:

JavaScript Notes.pdf

#### Step 3

Add inside data.js

```
{  
  name:"JavaScript Notes",
```

`url:"./assets/JavaScript Notes.pdf"`

}

Step 4

Save

Finished 🎉

---

Simple Memory Trick

Want to add file?

↓

assets folder

Want to show file on website?

↓

data.js

Want to change design?

↓

style.css

Want to add new feature?

↓

app.js / modal.js

For your project, 95% of future updates will be only:

assets folder

+

js/data.js

Nothing else 🚀

👉 font style hai
